**CATALOGUE 2020**

Established in 1918 the Pilot Corporation employs more than 2500 staff worldwide and exports to more than 120 countries. With subsidiaries in 20 countries Pilot is a global brand.

Group total sales exceeded JPY 104bn in 2018 (R13bn annually). At the forefront of product innovation and under the highest ISO regulations, the Pilot corporation has pioneered sales in most categories including fountain pens, clutch pencils, liquid ink and most recently FriXion, the erasable pen range.

Pilot Pen South Africa was officially opened in 1998 and moved to our current premises in Crown Mines in 2012. Trading out of 2000sqm, Pilot Pen South Africa services the Southern African market and sells in excess of 10 million pens per year. Pilot, More than a Pen, encapsulates the highest quality and innovation in a statement of one of the Worlds leading writing instrument brands. This product catalogue has available products sold to our Southern African customers and we hope that you the user can find a pen ideal for your use.

PILOT branded products are known throughout the world and are well received by customers. We maintain a vast network of subsidiaries and dealer affiliates around the world to bring the joy of owning a PILOT pen to everyone!

# FRIXION

## The secret about Frixion \_ the erasable ink

Well. How does Frixion really work?

Frixion ink "erases" due to Pilot's exclusive thermo-sensitive ink technology. If you need to make corrections on the page, simply "Frixion it" by rubbing with the Frixion eraser tip as if using a regular pencil eraser. When rubbing, the ink heats up to over 60 degrees and becomes invisible. Frixion pens have a special erasing tip which allows the paper to be heated quickly without damaging it.

## Experience the thermo-sensitive ink power!

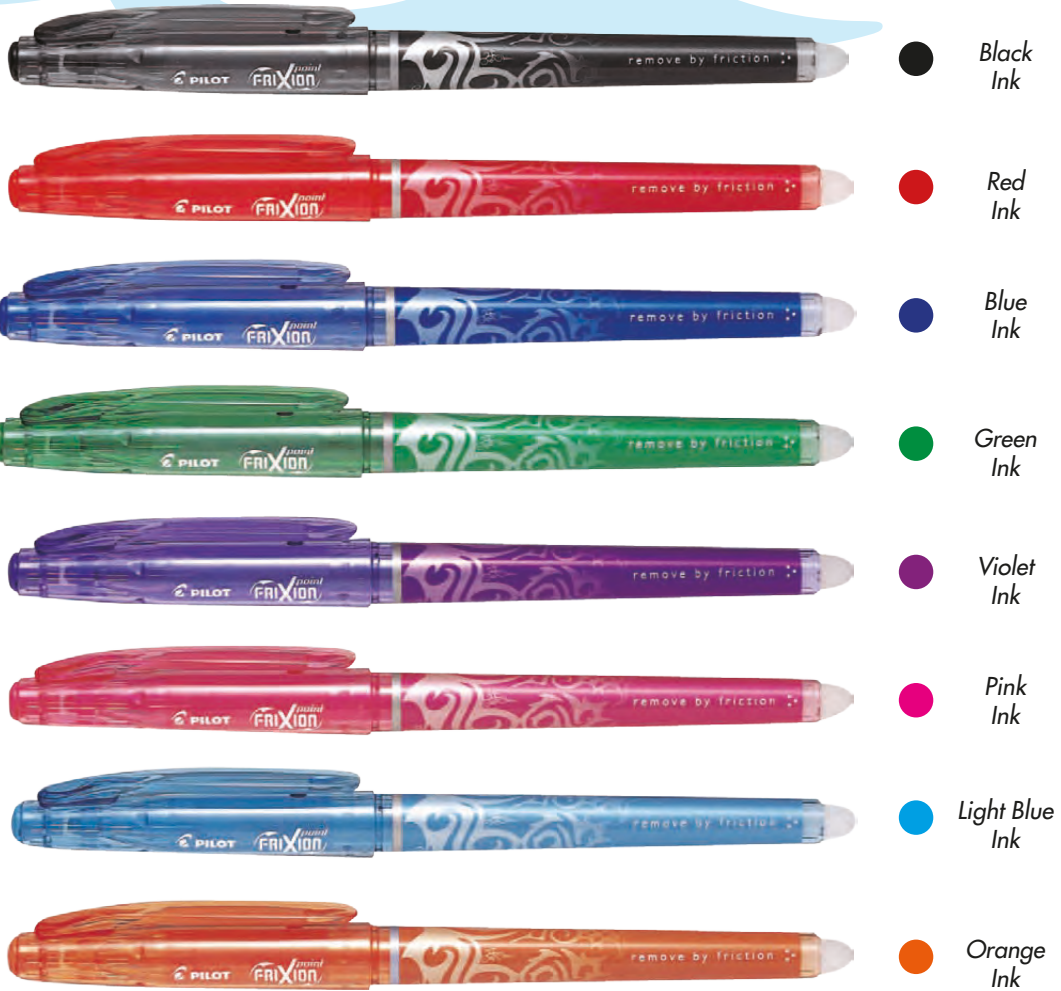

- \_ Write a secret message on a piece of paper
- \_ Erase it! with the eraser on the end of the pen
- \_ Send it to your friend and ask him/her to put it in the freezer for a few minutes
- \_ The ink will reappear at temperatures under 10 degrees and your friend will be able to read your secret message!

- Smooth effortless writing
- Elegant design mimics a bottle of water
- Refillable for continued use

Plastic water bottles have been under close scrutiny for their environmentally unfriendly characteristics. 2500,000 plastic bottles are used every hour! Less than 1 in 3 of those are recycled. Pilot has taken this environmental liability and transformed it into **B2P - Bottle 2 Pen**

# Parallel Pens

The Parallel Pen represents a major breakthrough in calligraphy pen design! The pen nib consists of two parallel plates, allowing the writer to produce lines sharper than existing calligraphy pens. Produce attractive, gradated colours by transferring ink from one pen nib to another pen nib. Two different ink colours can then be used from one pen nib to achieve this effect.

\* Nib sizes Available:

1.5/2.4/3.8/6.0mm

\* Each set includes the pen, 2 x Ink Refills, a Converter and Nib Cleaner

# MR

## TOUCH OF THE WILD

### A RING BETWEEN YOUR FINGERS

The sleek silhouette of the new Pilot MR collection is inspired by gentle and rounded lines of a cocoon. The softness of its fluid lines are highlighted by a discreet touch of wilderness: the Middle Ring in its animal motifs, White Tiger & Lizard. Each are available in a ballpoint pen with a matching mechanical pencil.
